

# WHAT YOU SHOULD KNOW BEFORE BOOKING A PSYCHIC READING

*Provided as a Free Service By Paris Drake*

**BUYER BEWARE - FOLLOWING ARE A FEW SITUATIONS PARIS UNCOVERED JUST IN THE PAST FEW YEARS...**

**WARNING: BEWARE OF LOCAL PSYCHICS THAT CLAIM 99% ACCURACY!** Paris Drake called a "new" local psychic claiming this and asked for their customer testimonials to back the statement up. She said "my readings are confidential and I am unable to release the testimonials", to which I stated "customer testimonials are provided by customers who are satisfied with your service AND EXPECT you to share the information with others." After I said this, the psychic hung up on me! It should also be noted that this psychic advertises that she can "cure bad relationships and make them good again, as well as cure a broken heart"! Wow...talk about trying to take advantage of desperate, unhappy, vulnerable individuals!!!

In another local matter, a neighbor, out of knowwhere, suddenly starts claiming to be able to read the Tarot Deck, and discusses doing this "for years". When Paris confronted her, she blew up in a fit of rage and ordered me off her property!

In yet another local matter, a store advertised their psychics as having "not less than 20 years experience". I called and asked for testimonials for the one I knew hadn't been reading longer than a year. They were unable to provide me with this information. Additionally, they became agitated with my desire to gain more information on their psychics and asked I not call back.

During the summer of 2005, several psychics in a large radius of the area I work were asked to participate in a challenge a local magazine was hosting. The magazine would place three individuals in front of the psychic, and the psychic was to perform a half hour reading while a reporter documented the results of the reading. Those results would be published in a future issue. They were up front in saying "If you do well, this will be great publicity, and if you do poorly, this may hurt your business". Paris Drake was the only psychic that took the challenge! The local magazine had to find a psychic out of their circulation range, in order to at least obtain one other willing soul who referred to themselves as being "psychic".

To insure that your psychic reading is rewarding, fulfilling, and an enjoyable experience for you, we recommend you do a little research on the psychic. Ask some questions, and make sure that the psychic you choose shares some of the same life values you do. Following are some recommended questions, and Paris Drake's personal answers to these questions.

**How long have you practicing & where are you based, and how long have you been in business?**

Paris Drake has been practicing Hypnosis For Relaxation and stress relief now since 1981. Enlightenment of his psychic gift developed around 1994. Paris is based out of Neenah, WI. Paris has been in business since 1981, and in March 2002 opened Xanadu New Age.

**What is your understanding of Psychic Ability?**

Paris understands that there are many different types of psychic readings and abilities. In general, you may have the "Clairvoyant" or the "Empathic", (not to say that you couldn't be both). A clairvoyant may not necessarily rely on tools of divination, (tarot cards, etc), to perform their work. They are able to receive messages from your guides, angels, protectors, and our creator, as well as those who have crossed over. An empathic will rely on tools of divination, and assess the meaning(s) of the tools for the question posed. They may also rely on their intuition through reading your energy while assessing the previously mentioned. Paris is a clairvoyant.

Paris understands that while all individuals are psychic, some choose to focus on their gift and develop it. Focusing on the gift will increase psychic awareness and ability. Through dedicating your work to increasing and developing psychic abilities, those who refer to themselves as psychic may have an increased awareness of vibrational energies on the spiritual as well as physical plane.

**How many psychics work for your company? How Do you test other psychic's abilities?**

From time to time Paris will utilize other psychics at large events or appearances, to insure good customer service and that all who come receive their reading. Paris has a series of tests, as well as a formal interview the psychic must be willing to submit to before they would be allowed to perform psychic work with Paris and/or be promoted with Xanadu New Age.

## HOW TO PREPARE FOR A READING

1. Write down on a piece of paper, the questions you want to ask & what you want to get out of the reading. Writing down your intention(s) for the reading is also important. A psychic will pick up on this energy and be able to assist you in meeting your intention(s).

If your intention is unclear, the psychic's message may also be unclear to you.

2. Be aware of the difference between intention and expectation. Information provided during the reading may well meet your intention(s) for asking questions, however messages, again, may be unclear if there is an expectation of having the psychic remedy a problem, block, or matter at hand for you.

While it is good to seek advice and assistance, and psychics many times do help remedy problems, blocks, or matters at hand, they will only facilitate giving you information to guide.

In other words, know why you are asking the question, what you would like to get out the answer, and be open to what information your creator, guides, and protectors have for you.

3. Be grounded and focused. Psychic knowledge and energy awareness is greatly facilitated through grounded and focused energy. Remember that the reading is not a test for you or the psychic. Questions and/or dialog geared toward "testing" the psychic is not a good use of your time and energy or the psychics time and energy. Questions geared toward "testing" the psychic are generally lack intention and place too much focus on expectation, which may scatter the energy. *(Please refer to #1 above).*

4. If you have questions regarding others, bring pictures, have first names and birth dates, bring (if possible) an article the person possessed. This is not required, but if available may facilitate a positive flow of energy & information.

We hope you are assisted by the information provided in this hand out and we ask for and appreciate your assistance with our crusade to insure professional, accurate, and psychic readings for you!

**What are your fees? If a reading goes over, will you inform me in advance?**

Paris posts his fees in the store, on his website ([www.parisdrake.com](http://www.parisdrake.com)), and in his brochures. Yes, he will tell you if a reading is running into overtime, and yes you will be quoted a price. Many times his readings will go over the booked time period and he does not charge only because neither you nor he can be responsible for information that may continue to come through.

**How do I know whether or not a psychic is experienced, honest, & accurate?**

Ask for references. Ask for any and all testimonials from past clients. Make sure the references and testimonials are accurate, reliable, and verifiable! Paris provides references upon request, and has testimonials posted on his website.
