

## A Little About Paris...

Born and raised in N.E. Wisconsin, Paris moved to the Fox River Valley Area in 1994 with his wife Karen and their family of cats.

Paris utilizes his psychic gifts, educational background, and life experience to assist you during a session. From traditional psychic work to advice with life issues, his focus is for you to experience a rewarding and productive session!

To get the full benefit from your reading, Paris recommends having a set "intention" for the reading. More clearly put, know within yourself what it is you wish to gain from the reading. If you have specific questions, have them written down. If you have pictures of individuals you will be asking about, bring them to the session.

Thank you to Shannatkah, Tohm-Tohm, my Soul Twin, guides and guardian angels for their loving support and guidance.

## **Welcome to Xanadu New Age...**

The name Xanadu was chosen based on the mythical city "Xanadu" built by Kubla Khan, as depicted in the Samuel Coleridge poem. The poem describes a place with jeweled valleys, a sacred river, and a place that is filled with protective, positive energy.

Our retail store offers unique, unusual, quality items from around the world. Everything from jewelry, art, greeting cards, incense, statuary, candles, to books, music, and oracle cards, as well as many other eclectic new age items of interest.

Our wellness area focuses on natural vitamins, herbs, and homeopathic tinctures and remedies.

We look forward to an opportunity to serve you and ask that you always remember to be good to yourself!

## **Life Coaching ~ Psychic Work**

While Paris is performing a reading for you, he will become one with your energy, establishing a connection with your angels to provide you with information that is to your highest good.

Some of Paris' clientele seek life coaching or counseling, while others may seek answers to questions regarding a future event. Some seek out past life information, or current life path information.

Paris also serves many within the business community, counseling them on decisions to be made, verifying answers they may already possess, or offering the best path among several choices.

Ask about hosting a private psychic party at your location or ours!

## **Relaxation Therapy**

Hypnotherapy is quickly becoming mainstream – the preferred, fast method for improving your personal, professional and spiritual life.
